Re: Account #33901  
Landfill Rate Increase

Gentlemen:

Effective August 1, 1983, we have received notification of a substantial increase in land-fill rates for the grinding, sludge, and all special industrial process waste material going into the land-fill in Belvidere.

The rate for dumping has been increased to \$16.00 per cubic yard at the land-fill. This is an increase of \$10.00 per yard.

We have also checked at the other landfills available in the area, where we would possibly be able to dispose of this, and their rates are higher yet.

We feel this is a substantial increase, however, handling this type of material, and the additional cost required at the land-fills, justifies a lot of this increase.

The rate for transporting the load, of course, will remain the same. We are simply passing along the land-fill rate increase at this time.

Should you have any questions regarding the service, please call.

Sincerely,

AAA DISPOSAL SYSTEMS, INC.

Richard W. Ter Maat
